

SOHAN D SOUZA

Email: sohandsouza15@gmail.com | Phone: +91 6362055398 | Shivamogga, Karnataka
LinkedIn: linkedin.com/in/sohan1919 | GitHub: github.com/Sohan-dsz

OBJECTIVE

Software Engineer specializing in AI/ML, data science, and full-stack development, focused on building scalable, high-impact real-world applications.

TECHNICAL SKILLS

Programming: Python, Java, C, C++, SQL

Web Technologies: HTML, CSS, React, Node.js, Django

ML & Data Science: NumPy, Matplotlib, scikit-learn, PyTorch, TensorFlow

Tools & Platforms: Git, Docker, Salesforce, OCI, Visual Studio Code, Jupyter Notebook

Engineering Tools: SolidWorks, ANSYS, Microsoft Office

EXPERIENCE

AIML – Full Stack Intern | *Geojit Technologies Pvt Ltd* Jan 2026 – April 2026

- Developed AI-powered applications by integrating LLMs and machine learning models into full-stack systems using Python and React.
- Built OCR-based document processing pipelines for structured data extraction from handwritten and printed forms.
- Developed multimodal AI pipelines using Whisper and LLMs for speech-to-text and response generation.

Salesforce Virtual Intern | *SkillWallet (Salesforce)* May 2025 – Jul 2025

- Developed CRM automation workflows using Salesforce Flow to optimize business processes.
- Built applications using Lightning App Builder and implemented dashboards for reporting and analytics.
- Worked on real-world CRM use cases involving automation, data handling, and workflow optimization.

PROJECTS

Cloud-Based NAAC Data Management System Oct 2025

Engineered a cloud-based NAAC data management system using Django (backend), React (frontend), and PostgreSQL (database), integrated with Keycloak for authentication, MinIO for object storage, and MeiliSearch for fast document retrieval. Implemented OCR-based indexing and containerized deployment using Docker.

Automated Form Data Extraction System Jan 2026

Designed an automated form data extraction system using TrOCR and PyTorch to convert handwritten and printed form data into structured outputs. Applied preprocessing techniques and region-based segmentation for improved OCR performance. Built a scalable Python pipeline for end-to-end document processing and data extraction.

HealthMate – Your AI Health Companion Mar 2025

Developed an AI-powered healthcare chatbot using LLaMA 3 Vision and Gradio, supporting multimodal interactions (text and voice). Integrated Whisper for speech-to-text and ElevenLabs for realistic voice responses. Implemented symptom analysis and nearby doctor recommendation features to provide users with preliminary medical guidance.

CERTIFICATIONS & COURSES

Oracle Cloud Infrastructure (OCI) Oct 2025

Generative AI Professional, AI Foundations, Foundations Associate

NPTEL (Swayam) 2023 – 2025

Cloud IoT, Edge ML, Large Applications Practicum

Applied Positive Psychology, Privacy & Security in Online Social Media

Salesforce 2023 – 2025

Agentblazer Champion (Dev), Agentforce AI Foundations, Developer Catalyst V3.0

Cisco Networking Academy: Introduction to Cyber Security Jul 2025

IBM Developer Skills Network: Data Science 101 Sep 2023

LEADERSHIP

Captain | Team SJEC Racing (SAEINDIA) 2023 – 2026

- Led a team of 30+ members in BAJA SAEINDIA 2026, achieving AIR 3 in ATVC and AIR 8 overall nationwide, demonstrating strong leadership and team coordination.
- Coordinated vehicle design, technical testing, and resource management across multiple departments.

EDUCATION

B.E. Computer Science & Business Systems | *SJEC, Mangalore* **CGPA: 8.87**

Visvesvaraya Technological University 2022 – Present

12th (Class XII) | *St Aloysius PU College, Mangalore* **85.3%**

Karnataka State Board 2021 – 2022

10th (Class X) | *Holy Redeemer High School, Shivamogga* **88.8%**

Karnataka State Secondary Education Board 2019 – 2020
